Deaths 1850-1930

All vital events occurred in Charlestown, unless otherwise noted. Attempts were made to accurately transcribe the vital event as recorded by the Clerk. Care was taken with the names to make sure the spelling was what was used during that time period and not the common spelling of today. Notations are placed where there are more than one spelling of a name. Help with the ornate writing in the original books was provided by www.theelegantpen.com.

Note: COD: Shall mean cause of death. The cause of death will be typed as recorded by the Clerk wherever possible. On occasion, parenthesis are used to aid the researcher as to the meaning of some of the archaic terms used. The definitions from these early illnesses and diseases were obtained from www.genealogyencyclopedia.com

We believe the Clerk recording the information could not understand what was being said to him. He may have written what he heard. We also believe the second entry was an attempt to correct the first. On 1-20-2005, the Town Clerk verified with Richard Sculco of St. Sebastian Cemetery, the correct name. He stated that one document shows Morrone, while another shows Marrone. The headstone at St. Sebastian reads: Bombina Morrone 1887-1905. The stone is located on lot 23.**
